DPD 2071-62

30 MAR 1962

MEMORANDUM FOR : Chief, Materiel Staff, DPD-DD/P

SUBJECT : Request for Requisition Amendment Regarding
E & E Training Equipment

Ref. A Requisition No. 2805-79-62
B Requisition No. 912-H-1020-62

1. Request references A and B be amended to include "Miscellaneous E & E Training Equipment." Sufficient allotted funds remain for each of the two requisitions to effect procurement of the equipment desired in the amendments. (Ref A allotted fund balance Ref B allotted fund balance).

2. Equipment initially requested in references A and B is intended to provide in-place evasion and survival training for aircrews subject to clandestine air operations. For security purposes it is also planned to conduct such training in small groups consisting of one or two instructors and two to four students at a time. Such training would be conducted under the cover of a hunting and/or fishing trip according to local seasons. At the time the initial equipment request was forwarded, cover equipment in the nature of hunting and fishing equipment was inadvertently excluded. The requested amendment will correct this discrepancy.

3. Specific equipment items are not requested herein, instead a TSD representative and E & E officer will select suitable equipment within the funding limitations indicated in paragraph 1.
